FHWA/HEPI-10 :: December 2003

This map illustrates the National Highway System (NHS) in Pittsburgh, Pennsylvania, and its surrounding regions. The map features a network of roads color-coded by their status: blue for the Eisenhower Interstate System, red for other NHS routes, green for non-interstate STRAHNET routes, and light green for major STRAHNET connectors. Brown lines represent intermodal connectors, and dashed red lines indicate unbuilt NHS routes. Grey lines show other roads not on the NHS, and black lines with cross-ticks represent railroads. The map also highlights various land use areas: orange for census urbanized areas, purple for Indian reservations, olive green for Department of Defense land, light green for national forests, dark green for National Park Service land, and light blue for water bodies. Key transportation facilities are marked with icons: airports (blue airplane), intercity bus terminals (blue bus), ferry terminals (blue boat), truck/pipeline terminals (purple truck), multipurpose passenger facilities (purple building), port terminals (blue anchor), truck/rail facilities (blue truck), AMTRAK stations (blue train), and public transit stations (blue train). The map includes labels for major cities and towns such as Pittsburgh, Monessen, Uniontown, and Connellsville, as well as numerous smaller communities. Major highways are labeled with their route numbers, and the map shows the proximity to the Ohio state border and the West Virginia border. A scale bar at the bottom left indicates distances in miles (0 to 14) and kilometers (0 to 14). A north arrow is also present. The map is dated December 2003.
